

The faithful community of St. Mary's supports the work of our Buildings and Grounds Committee because we recognize and understand the importance of glorifying God's temple both inside and outside. This ministry offers their time and talents by making prudent decisions on the structural upgrades and fixes that are required to our church and outbuildings. They coordinate efforts for lawn care, snow removal and beautification such as planting flowers, tending to the weeds/flower beds and showcasing our corner real estate. They are also involved with coordinating the use of the property for our Fall fair and other events we host throughout the year.
